June 30, 1982

Dear Robert,

Your letter came this afternoon. Thank you for all the articles you sent me. I especially enjoyed the one about the Curtis maple sugar because I have been there to see it and also have memories of Uncle Frank Curtis's farm when we went there and boiled syrup to pour on snow.

I don't know whether I would be much of an addition to your round table discussion as I don't remember things like you and Edith but if you want to take a chance on me possibly I could make some comments about things I remember.

I hope you and Donald will be able to get down here eventually to see some of the outstanding things which I know you will enjoy.

My arm has improved but I am still having problems with it, especially when I write.

Best of luck in your plans for Pioneer Days.

Sincerely,

Gertrude
